Customer Support Policy

Effective 1 October 2026. All amounts are in INR.

1. Payments and outstanding balances

Customers may pay for an order in instalments using UPI, credit card, debit card, net banking or wallet. An order is dispatched only after the full order total has been paid. Any unpaid amount is shown as the outstanding balance on the order. Customers can clear an outstanding balance through the payment link sent by SMS or by calling support. Failed payment attempts are not charged and do not reduce the balance.

2. Order statuses

Processing means the order is confirmed and being prepared. On hold means the order is waiting for a payment or verification step. Shipped means the parcel has left our warehouse and a tracking number has been issued. Delivered means the courier has confirmed delivery. Pending payment means no successful payment has been received.

3. Delivery timelines

Metro cities receive orders within 2 to 4 business days after dispatch. Other locations receive orders within 5 to 7 business days. If a shipment shows no tracking update for 48 hours, support will open a courier trace and update the customer by SMS within one business day.

4. Cancellations

Orders can be cancelled free of charge until they are shipped. Once an order is shipped it cannot be cancelled, but it can be returned after delivery under the returns policy.

5. Refunds

Refunds are issued to the original payment method. UPI and wallet refunds settle within 2 business days. Card and net banking refunds settle within 5 to 7 business days. Duplicate charges are refunded in full once verified. Partial refunds for instalment payments are calculated from the successful payments on the order.

6. Returns

Products can be returned within 7 days of delivery if they are unused and in their original packaging. Earbuds and headphones can be returned only if the seal is unbroken, unless the product is faulty. Faulty products are replaced free of charge within 30 days of delivery.

7. Warranty

Electronics carry a 12-month manufacturer warranty from the date of delivery. Warranty claims need the order ID and a short description of the fault.
